## for the Web

**Header:** Your blog's header is found at the top of your blog and is usually the first impression visitors to your blog get.

**Posts:** Blog posts are the most important part of your blog, because if your content isn't interesting, no one will read your blog,

**Comments** Blog comments are what make your blog interactive and build a community around your blog. Without comments, you're simply talking to yourself.

**Sidebar:** Your blog's sidebar is the perfect place to display important information, ads, links, and so on that you want visitors to see.

**Categories:** Define the blog "story". Help to make your old blog posts easier to find by topic.

**Archives:** Blog archives are where all of your old blog posts are saved for future viewing. Visitors to your blog can browse through your blog archives by date.

**Footer:** It can include links, ads, and more. Use it to include helpful information that's not critical to the user experience.
